MIRROR IMAGE®

German Mirror TV LCD Technology

MIRROR IMAGE® is the LCD engine that drives images through glass to deliver superb picture quality. Whether placed behind a crystal mirror or a MAGIC MIRROR®, MIRROR IMAGE® transforms an ordinary mirror to a mirror “powered by **ad notam**®”.

ad notam® is a celebrated inventor, pioneer, and leader in the LCD Mirror TV industry. The MIRROR IMAGE® product line is always a combination of the **ad notam**® LCD and glass or mirror surface. Beginning with the stylish and perfectly integrated look of glass and following with the only LCD monitors which are factory calibrated for integration behind glass, the end result is sure to mesmerize all your senses.

All **ad notam**® products are German made, custom-engineered, LCD technology. They are exclusively designed to overcome the unique challenges of operating in ventilation deprived environments and to allow easy and adjustable mounting. The unique magnet mounting system accompanying all **ad notam**® products is distinctively designed to suit all particularized placements behind any glass surfaces.

MIRROR IMAGE® technology is patent protected.

A word cloud consisting of the word "Applications" repeated multiple times. The words are rendered in a serif font and vary in size, with some appearing as large, bold elements and others as smaller, fainter text. They are scattered across the frame, with some overlapping, creating a sense of depth and repetition. The background is a solid black, which makes the light-colored text stand out.

Kitchens

The kitchen is an ideal location for MIRROR IMAGE®. Hidden behind the kitchen backsplash or integrated into the kitchen cabinets it is protected against dirt, dust, and grease, easy to clean, and saves space. MIRROR IMAGE® will transform your kitchen experience without altering your kitchen's design. The only limit is your imagination.

37" MIRROR IMAGE® TV-M LINE™ with Crystal Mirror, Furniture Design by Mobalpa

Living & Media Rooms

Introduce a new dimension to your TV experience. Get your latest news and entertainment in a most dramatic way. The living room applications conceal **MIRROR IMAGE®**, so that it is completely invisible when turned off, and present only when you need it. Consider the potential of elegantly blending the TV into your custom-designed living room space. **MIRROR IMAGE®** can be recessed into the wall, hung as a picture, free standing, or even integrated into the furniture. The only limit is your imagination.

46" MIRROR IMAGE® TV-M LINE™ with MAGIC MIRROR®, Design by Safretti

Bedrooms

Like having the comfort of a TV in your bedroom, but dislike the intrusive cables and TV? MIRROR IMAGE® has a solution for you - the MIRROR IMAGE® bedrooms applications conceal MIRROR IMAGE® completely, visible only when you need it. Whether recessed into the wall, hung as a picture, integrated into your bedroom furniture, or even part of a sliding door closet, MIRROR IMAGE® will transform your bedroom into the sanctuary that you deserve.

Hospitality

LOBBIES & PUBLIC AREAS | CONVENTION CENTERS | BATHROOMS | SUITES DÉCOR | ROOM FURNITURE | SPAS | ELEVATORS

Rooms & More

NEW LIVING™ 46" with MAGIC MIRROR®

MIRROR IMAGE® offers a dazzling, perfectly customized, first impression. Integrate your marketing, activities, facilities' highlights and attractions into a mesmerizing display of elegance. From lobbies to convention centers and casinos, from spas to bathrooms and elevators; we've done it all.

SUITES DÉCOR

Want to ensure your guests' ultimate satisfaction? MIRROR IMAGE® is your solution. Dazzle your guests with a new dimension to the entertainment and media unit in your suites. MIRROR IMAGE® can easily connect to your current Video on Demand system, ensuring the highest quality when turned on, and turns completely invisible when turned off.

ROOM FURNITURE

ad notam® offers complete integration of MIRROR IMAGE® into furniture design. Customize your room décor to your vision and aesthetics with elegance and style.

ad notam® is a German Mirror TV company specializing in engineering and manufacturing LCD and glass technology. As the inventor of the Mirror TV with over eight years experience in this competitive industry, **ad notam®** remains the leading authority in Mirror TV technology. To allow the continued development of its product lines and technology, **ad notam®** develops, operates, and manufactures all its products in its own facilities in the south of Germany.

By definition, a Mirror TV is an integration of both LCD technology and glass technology. **ad notam®** acknowledges the equal importance of both elements, and continues to develop new and exciting breakthroughs on both fronts. It is **ad notam®**'s philosophy that any product is only as good as its elements. By knowing everything there is to know about both LCD and glass technology, **ad notam®** is able to provide its demanding clientele with the most cutting-edge Mirror TV technology they deserve.

ad notam®'s research and development team has flawlessly adapted and calibrated the **MIRROR IMAGE®** LCD for installation behind glass. From radio frequency remote control system which allows the signal to penetrate through the glass, to the **MIRROR IMAGE®** gapless monitor architecture system; from the low-voltage power system which allows even the world largest Mirror TV with 82" LCD to operate in damp environments, to the slick "disappearance act" of the **MAGIC MIRROR®**; these are just some of the advantages **ad notam®** offers its clientele thanks to its comprehensive knowledge of Mirror TVs and the various elements that construct them.

Thanks to its facilities, as well as its in-house engineering team, **ad notam®** is able to quickly adapt your needs and industry trends to its products. Focusing its philosophy on the customization and integration of its products, **ad notam®** is acknowledged as the best provider of solutions in interior design and functionality by the leading OEM and furniture manufacturers. For these reasons, the Fraunhofer Institute partnered with **ad notam®** in creating the "Hotel of the Future" project; analyzing the trends of future living standards.

MAGNETIC MOUNTING SYSTEM

Provides placement versatility and easy installation and servicing at one price.

ULTRA SLIM PROFILE

The 15" MIRROR IMAGE® LCD monitor is less than 0.4" thick.

FLUSH FITTED MONITOR

D.O.G Mounting System enables gapless installation between the glass and the monitor, resulting in a crystal clear picture.

VENTILATION

The **ad notam®** LCD requires no ventilation. This allows low power consumption and silent operation.

THERMAL BOARD

Thanks to German Engineered Temperature Regulator PVC, the **ad notam®** LCD's supersedes the 40° maximal operational temperature of generic LCDs.

HARSH ENVIRONMENTS

MIRROR IMAGE® monitors are low voltage products (DC 12V or 24V) and rated IP X4, safe for operation in bathroom environment.

EXTERNAL POWER SUPPLY

Facilitates service & regulates heat sync.

RF REMOTE CONTROL

ad notam® Radio Frequency Receiver and Remote Control penetrate mirror and glass surfaces, unlike generic IR transmitter.

INVENTOR & MANUFACTURER QUALITY

As the inventor, manufacturer, and retailer of the **ad notam®** LCD monitors, all our products are built and sold with industrial grade standard, unlike the generic LCD bundled consumer grade standard.

COMPLETE INVENTOR, MANUFACTURER, AND RETAILER WARRANTY

The **ad notam®** LCD monitors are factory calibrated for installation with glass and mirror surfaces. Our Manufacturer Warranty reflects on the LCD installation versatility, unlike all generic stand-alone monitors.

The Magic Mirror® Effect

ad notam® is the only Mirror TV manufacturer which owns its LCD and Glass manufacturing facilities. One of the most featured products manufactured in our facilities, located in the south of Germany, is the patent-protected **MAGIC MIRROR®** technology. With **MAGIC MIRROR®** as part of your **MIRROR IMAGE®** product, **ad notam®** delivers the highest standard of picture quality when turned on, while when turned off, the screen area completely disappears behind the **MAGIC MIRROR®**, leaving your mirror TV as an elegant fixture in your environment.

ad notam® offers **MAGIC MIRROR®** at a maximal dimension of 2000mm by 3000mm, though owning our facilities enables us great flexibilities to work with you and achieve the perfect look and size you desire. The **MIRROR IMAGE®** LCD can be placed anywhere within the **MAGIC MIRROR®** surface; from the traditional center, to multiple and randomly places screens. **MAGIC MIRROR®** technology is a perfectly sublime addition to your environment, one that can easily accommodate any LCD size you desire; from our smallest **MIRROR IMAGE®** LCD to the world's largest 82" **MIRROR IMAGE®** LCD.

- 1** MIRROR IMAGE® with MAGIC MIRROR® when turned on
- 2** MIRROR IMAGE® with MAGIC MIRROR® when turned off

Whether in a private, public, or business space, glass is a dominant element of interior design. With the most unique and diverse selection of glass and mirrors worldwide, **ad notam**® is sure to have the right glass solution for you. As the only LCD specifically tailored to be combined with glass, **ad notam**® offers a most thorough familiarization with cutting-edge glass and mirror products. With countless possibilities for **MIRROR IMAGE**® integration into different applications, **ad notam**® offers mirror and glass products that are sure to accommodate any and all possibilities: the ideal multimedia piece, a unique architectural element, or the ultimate communication platform. While customizing your **MIRROR IMAGE**®, you have the opportunity to choose from great many glass and mirror products, consider color, size, shape, facet, sandblasting, lamination, and most importantly - the **MIRROR IMAGE**® LCD.

For precise tailoring and personalization of your **MIRROR IMAGE**® glass options, as well as many other customization options, visit our online **MIRROR CONFIGURATOR**™ at www.ad-notam.com/Configurator.

6 DESIGN GLASS MAGIC MIRROR®	This unique and impressive technique's elegant and carved look will support any choice of graphics in the most striking manner, backdropped by your monochrome RAL color specification.	5mm 0.0020"	Splinter Shield Back Foil	3150mm x 2000mm 10.33' x 6.56'
DESIGN GLASS CRYSTAL MIRROR		6mm 0.0024"	Laminated Safety Glass 7mm 0.0028" 8mm 0.0032"	3150mm x 2000mm 10.33' x 6.56'

All MIRROR IMAGE® products share custom-engineered German technology to overcome the unique challenges of driving images through mirror and glass surfaces. MIRROR IMAGE® is factory calibrated using a proprietary algorithm to deliver images through glass. The unique magnet mounting system (DOG system architecture) accompanying all MIRROR IMAGE® products is designed to suit all particularized placements behind any glass surfaces. There is no gap between MIRROR IMAGE® and the mirror surface resulting in a crystal clear picture, and delivering a futuristic look as if the images are natives to the glass. Please view the chart below to find the MIRROR IMAGE® LCD line that is right for you.

For perfectly seamless integration to your environment, **ad notam**® offers many options for easy, safe, and intelligent mounting. All **ad notam**®'s mounting options were engineered exclusively for the **MIRROR IMAGE**® products and the integration of mirror and glass. The **ad notam**® Mirror & Glass Mounting Systems differentiate between two categories: In-Wall Mounting Systems and On-Wall Mounting Systems.

IN-WALL MOUNTING SYSTEMS

As its name suggests, **ad notam**®'s In-Wall Mounting Systems integrate your complete product (**MIRROR IMAGE**® LCD combined with a mirror or glass panel) into a cavity in the wall. The cavity is created particularly to fit and embed only the **MIRROR IMAGE**® LCD and the mounting system, while the mirror or glass panel overlies on the wall. The end result of this seamless integration is sure to spellbind all your senses.

ON-WALL MOUNTING SYSTEMS

Again, as its name suggests, **ad notam**®'s On-Wall Mounting Systems integrate your complete product (**MIRROR IMAGE**® LCD combined with a mirror or glass panel) onto the wall surface. The **MIRROR IMAGE**® LCD depth is the only thing which protrudes from the wall, and your complete product is hung via one of the On-Wall Mounting Systems.

GLASS SPEAKERS

The Glass Speaker is the most efficient and vibrant sound system for environments 15 square meters and smaller. The speaker system is tailored for Behind-Glass installation.

CEILING SPEAKERS

For environments such as yachts and spas, **ad notam®** offers a humidity-safe, corrosion-resistant, saltwater-resistant, and waterproofed ceiling speaker.

EXTERNAL AUDIO CONNECTION

All MIRROR IMAGE® products are calibrated to output perfect sound to your preexisting sound system.

LIGHT OPTIONS

For the perfect mood lighting at the perfect timing, **ad notam®** offers the LED moodlights addition to the MIRROR IMAGE® product lines. The LED moodlights can be easily connected to your Home Automation system and controlled via **ad notam®**'s OSD MOODLIGHT ADJUSTER.

HOME AUTOMATION

All **TV-M LINE™**, **CO LINE™** and **HD LINE™** products are Home Automation enabled via RS232 control interface with 286 control functions. Features include:

- MOODLIGHT ADJUSTER - RGB Control for complete functionality of your LED lights.
- QUADRUPLE POWER SWITCHES - Power Control with x4 channels for functionality of lights, blinds, etc.
- QUADRUPLE HDMI SWITCHES - HDMI Control with x4 channels and Learn Function for the Set Top-Box remote.
